Relevant legislation and standards include but are not limited to:

- *Education and Care Services National Law Act 2010*

- *Health Records Act 2001* (Vic)
- *Information Privacy Act 2000* (Vic)

- *National Quality Standard, Quality Area 7: Leadership and Service Management*
- Standard 7.3: Administrative systems enable the effective management of a quality service
- *Privacy Act 1988 (Cth)*
- *Public Records Act 1973 (Vic)*

ATTACHMENT 1 ADDITIONAL BACKGROUND INFORMATION

Early childhood services must ensure that their processes for the collection, storage, use, disclosure and disposal of personal and health information meet the requirements of the appropriate privacy legislation and the *Health Records Act 2001*. The following are examples of practices impacted by the privacy legislation:

- *Enrolment records*: Regulations 160, 161 and 162 of the *Education and Care Services National Regulations 2011* detail the information that must be kept on a child's enrolment record, including personal details about the child and the child's family, parenting orders and medical conditions. This information is regarded as sensitive information (refer to *Definitions*) and must be stored securely and disposed of appropriately.
- *Attendance records*: Regulation 158 of the *Education and Care Services National Regulations 2011* requires details of the date, child's full name, times of arrival and departure, and signature of the person delivering and collecting the child or the educator, to be recorded in an attendance record kept at the service. Contact details may be kept in a sealed envelope at the back of the attendance record or separate folder for evacuation/emergency purposes. Contact details for the purpose of emergency evacuation will also be provided to BKS as the Approved Provider.
- *Medication records and incident, injury, trauma and illness records*: Regulations 87 and 92 of the *Education and Care Services National Regulations 2011* require GKA as the Approved Provider of a service to maintain incident, injury, trauma and illness records, and medication records which contain personal and medical information about the child.
- *Handling and storage of information*: Limited space can often be an issue in early childhood service environments, and both authorised employees and BKS as the Approved Provider need access to secure storage for personal and health information. Documents might be required to be stored off the service premises. Wherever confidential information is stored, it is important that it is not accessible to unauthorised staff or other persons. When confidential information is required to be taken off-site (e.g. on excursions, a list of children with medical conditions and contact numbers will be required), consideration must be given to how this is transported and stored securely.
- *Computerised records*: It is important that computerised records containing personal or health information are stored securely, and can only be accessed by authorised personnel with a password. Services need to incorporate risk management measures to ensure that passwords are recorded and stored in a secure place at the service, and to limit access to the information only to other authorised persons (refer to the *Information Technology Policy*).
- *Forms*: Enrolment forms and any other forms used to collect personal or health information should have the service's *Privacy Statement* (refer to Attachment 4) attached.
- *Collecting information for which there is no immediate use*: A service should only collect the information it needs and for which it has a specific purpose. Services should not collect information that has no immediate use, even though it may be useful in the future.

When the photographs/videos are no longer being used, BKS services will destroy them if they are no longer required, or otherwise store them securely.
