  - Stimulating, engaging and enhances children's learning and development.

### 2.0 Values

- 2.1 BKS is committed to:
- Providing an educational program that is based on reflective practice, critical analysis and planning.
  - Supporting each child to achieve learning outcomes consistent with the National Early Years Learning Framework and/or the Victorian Early Years Learning and Development Framework (refer to Sources).
  - Providing an educational program where children can learn through play and are supported to make decisions, problem-solve and build relationships with others.
  - Creating an environment that supports, reflects and promotes equitable and inclusive behaviours and practices. through implementation of an anti-bias curriculum
  - Involving families in the development and review of educational program and practice.

### 3.0 Scope

- 3.1 This policy applies to the Approved Provider, Nominated Supervisor, Persons in Day to Day charge, educators, other staff, students on placement, volunteers, parents/guardians, children and others attending the programs and activities of BKS Services.

### 4.0 Background

- 4.1 The *Education and Care Services National Law Act 2010* (National Law) requires services to deliver an educational program (curriculum) that is based on an approved learning framework. In Victoria, approved learning frameworks for the early childhood sector are the *Early Years Learning Framework (Belonging, Being & Becoming)* (refer to Sources) and the *Victorian Early Years Learning and Development Framework* (refer to Sources). These documents are underpinned by practices and principles that encourage reflection and provide educators with a thorough understanding of the pedagogy of early childhood curriculum in a contemporary context.

- 4.2 Part 4.1 of the *Education and Care Services National Regulations 2011* (National Regulations) outlines the operational requirements for educational program and practice within services, including the requirements for documentation of assessments in relation to the educational program. There is no prescribed method in the National Law or National Regulations for documenting assessment of children's learning. Each service must determine a method that suits their individual circumstances. To meet the documentation requirements of the National Regulations, the assessment must include an analysis of children's learning. Collecting this information enables educators to plan effectively for each child's learning and development. It can also be used by educators to stimulate reflection on their own values, beliefs and teaching practices, and to communicate about children's learning with children and their families.

- 4.3 The National Regulations requires the appointment of an Educational Leader to lead the development and implementation of the educational program (or curriculum) at the service (Regulation 118). This person will have suitable qualifications and experience, as well as a thorough understanding of the *Early Years Learning Framework* and/or the *Victorian*

*Early Years Learning and Development Framework*, enabling them to guide other educators in planning and reflection, and to mentor colleagues in implementation practices (*Guide to the Education and Care Services National Law and the Education and Care Services National Regulations*, p85 – refer to Sources).

4.4 The *National Quality Standard* is linked to the approved learning frameworks. Quality Area 1: Educational Program and Practice focuses on “enhancing children’s learning and development through the:

- a) Pedagogical practices of educators and co-ordinators.
- b) Development of programs that promote children’s learning across five learning outcomes” (*Guide to the National Quality Standard*– refer to Sources).

4.5 The educational program must also be underpinned by the service’s philosophy.
